### **How OPERATION COVID-19 & Covid *Super Vaccination Agenda* Complement Each Other to Kill and Sicken a Maximum Number of Human Beings Without Detection**

---

State of the Nation

**It ought to be quite clear by now to every *Plandemic* watcher that there is a very stealthy plot afoot to depopulate planet Earth and enslave the remaining humanity via the COVID-19 bioweapon and weaponized Covid vaccines.**

This *New World Order* globalist scheme has many facets to it, but there are two primary components that work closely in tandem with each other.

First, there was the launch of the different generations of the COVID-19 bioweapon as well as its variants targeting certain nations across the planet. In other words, Wuhan, Milan, Tehran, New York City, Moscow and Guayaquil, Ecuador all experienced different variations of the COVID-19 bioweapon whose main pathogenic micro-organism was a parasite.

Secondly, there was the roll-out of the various weaponized Covid vaccine programs around the globe each of which was designed to provide more vectors of dissemination of the extremely deadly and damaging spike proteins. The spike proteins bioengineered into the COVID-19 bioweapon were then super-charged by the spike proteins put into the Covid injections.

Both of these depopulation and debilitation phases of the Covid *Plandemic* were designed to produce a slow-motion mass murder of the targeted populations, as well as a gradual sickening of a large swath of humanity.

What follows is an excellent description of this one-two knockout punch thrown at the entire human race. This detailed explanation is rendered by a very smart Indian physician who appears to have read SOTN for many months since this *Alt Media* platform has posted many of the same pieces of the Covid crime puzzle.

In fact, this Covid one-two punch was presented by SOTN in a very similar dissection of the COVID-19 crime scene during the first few months of the *Plandemic*, several months before the vaccines were even approved on an emergency basis by the FDA. The first big clue came when the Covid research team from India published their scientific paper (early in 2020) that identified the dangerous spike proteins found in COVID-19.

Now here is the highly informative video which should be posted and sent out everywhere post-haste, especially to all healthcare professionals—***Thank you!***
